

Safety Program and Emergency Planning

It is the policy of the Board to provide for the safety of all students, staff and members of the public while they are engaged in district activities. The superintendent shall be responsible for developing and implementing a safety program.

Safe buildings, grounds and equipment will be maintained in order to prevent accidents or injury to students, employees and other citizens from fire, natural disasters, mechanical and electrical malfunction and other hazards.

Buildings and grounds will be planned, equipped and maintained in accordance with appropriate local, state and federal safety regulations. Buildings will be provided with alarm systems, fire extinguishers and other safety devices required by state and federal laws and regulations. Safety procedures will be taught and other precautions taken in order to attempt to eliminate accidents and potentially harmful situations.
